Appendix 2:
<a href="#">2022 Market Rent Index by Housing Provider Name – Peel Region</a>

**Legislation** *Housing Services Act, 2011 O. Reg. 369/11*

**Purpose** The purpose of this document is to communicate the 2022 indices for costs and revenues to calculate subsidies under the *Housing Services Act* (HSA). The indices in this document are used to calculate subsidy for all housing providers in the Region of Peel. The notification for Peel Living of these indices will be done outside of this HIP.

The Cost Indices for mixed non-profit and 100% RGI non-profit projects are used to calculate operating subsidies.

The Market Rent Index is used to calculate the operating and rent-g geared (RGI) subsidies for section 110 housing providers (formerly section 103). The Ministry of Housing (MOH) issues the Market Rent Indices each year that reflect changes in the market rents for each area.

**Mixed Non-Profit Projects** Mixed Non-Profit Projects are to use Appendix 1, Table 1, which presents a combination of indices for costs and revenues for mixed projects. In addition, they are to use the MRI Table in Appendix 2 to determine indices for Benchmark Revenues which varies depending on location as based on information from the MOH.

**100% RGI Non-Profit Projects** 100% RGI Non-Profit Projects are to use Appendix 1, Table 2, which presents indices for costs for 100% RGI projects.

**Applying the Indices** The numbers provided in the 2022 tables are percentages and must be converted into an “index factor” before it can be used to prepare your budget form for your 2022 fiscal year (O. Reg. 369/11 section 6.1).

The following are examples of a Positive Index and a Negative Index:

Positive Index Example		Negative Index Example	
Index	= 2.34%	Index	= (2.34)%
Decimal	= 0.0234	Decimal	= (0.0234)
Index Factor	= 0.0234 plus 1 = 1.0234	Index Factor	= (0.0234) plus 1 = 0.9766

**Questions** If you have any questions pertaining to this document, please contact your Housing Programs Specialist at the Region of Peel.
