Help protect yourself from all respiratory illnesses by:
- washing hands regularly with soap and warm water
- avoiding touching your eyes, nose and mouth with unwashed hands
- avoiding close contact with people who are sick
- cleaning frequently touched objects and surfaces

Help protect others by:
- staying home when you are sick
- covering coughs and sneezes with a tissue or your sleeve (and encouraging your child to do the same)

The risk to the Peel community is low. While the novel coronavirus (COVID-19) is a serious illness, the main risk factor is recent travel to affected areas of China.
