RECEIVED

JAN 4 2010

REGION OF PEEL
CLERKS DEPT.

Dear Jeff:

RE: Notice of Motion – Alton Village Study

At the regular meeting of Council held on December 15, 2009, Council received a Notice of Motion brought forward by Councillor Paterak regarding the Alton Village Study.

The following resolution was passed at the above noted meeting:

Whereas the Alton Village Study has set a projected population number for Alton at 2950 to the year 2031; and

Whereas the Region of Peel has been waiting for a population number; and

Whereas now the Peel District School Board has announced plans to build and occupy a new school in Alton in September, 2013; and

Whereas the new Alton School must be serviced by communal waste water treatment to build on the proposed site;

Now therefore be it resolved that Caledon Council urge the Region of Peel Wastewater Division to proceed with haste and diligence to complete the Environmental Assessment, the design of the required system, the construction of the wastewater sewers and communal sewage treatment plant that will have capacity for the projected new population, the business community that requires communal servicing immediately, and for the existing population as recommended by the Environmental Assessment; and

Further that the Region of Peel communicate to the Peel District School Board that it will work with the Board to ensure cooperation to facilitate the building of the new Alton school by September 2013 including interim plans for waste treatment for the school, if necessary; and

That this Resolution be sent to Region of Peel Council and the Peel District School Board.

If you have any questions regarding this Notice of Motion, please contact Mary Hall, Director of Planning & Development, mary.hall@caledon.ca (905) 584-2272 ext: 4188 in the Planning & Development Department.

Yours truly,

B. Karrandjas
