

THE REGIONAL MUNICIPALITY OF PEEL

WASTE MANAGEMENT COMMITTEE

MINUTES

WMC-2009-7

The Waste Management Committee met on December 17, 2009, at 11:15 a.m. in the Council Chamber, Regional Administrative Headquarters, 10 Peel Centre Drive, Suite A, Brampton.

Members Present: G. Carlson*; G. Gibson*; E. Kolb; E. Moore*; M. Morrison*; P. Mullin*; C. Parrish; R. Paterak; M. Prentice; P. Saito; J. Sanderson; J. Sprovieri; A. Thompson

Members Absent: Nil

Also Present: S. Fennell, Regional Councillor; K. Mahoney, Regional Councillor; H. McCallion, Regional Councillor; R. Whitehead, Regional Councillor; D. Szwarc, Chief Administrative Officer; R.K. Gillespie, Commissioner of Employee and Business Services; D. Labrecque, Commissioner of Public Works; N. Trim, Chief Financial Officer and Commissioner of Corporate Services; P. O'Connor, Regional Solicitor and Director, Legal and Risk Management; N. Lee, Director, Waste Management; S. VanOfwegen, Director, Business Planning and Financial Support Services, Corporate Services; D. Gordon, Manager, Program Planning, Waste Management; L. Conrad, Manager, Waste Operations, Waste Management; B. Shepherd, Manager, Collections and Processing, Waste Management; T. Prokop, Program Support Analyst, Waste Management; S. Jurrius, Committee Clerk

Chaired by Councillor M. Prentice

1. **DECLARATIONS OF CONFLICTS OF INTEREST – Nil**
2. **APPROVAL OF AGENDA**

RECOMMENDATION WM-20-2009:

That the agenda for the December 17, 2009, Waste Management Committee meeting, be amended to include a delegation by Glen Schnarr, President, Glen Schnarr and Associates Inc., regarding the Algonquin Power Green Infrastructure Funding application, to be dealt with under Delegations/Presentations - Item 3d;

* See text for arrivals

♦ See text for departures

And further, that the agenda for the December 17, 2009, Waste Management Committee meeting be approved, as amended.

See also Delegations/Presentations – Item 3d

3. DELEGATIONS/PRESENTATIONS

- a) **Norman Lee, Director, Waste Management**, Providing an Update on the *Waste Diversion Act* and Long Term Waste Management Strategy

Received

Councillor E. Moore arrived at 11:17 a.m.
Councillor P. Mullin arrived at 11:18 a.m.
Councillor G. Gibson arrived at 11:19 a.m.
Councillor M. Morrison arrived at 11:19 a.m.
Councillor G. Carlson arrived at 11:21 a.m.

Norman Lee, Director, Waste Management, provided a high level overview of the changes to the *Waste Diversion Act* (the Act) proposed by the Minister of the Environment (MOE) and its potential implications to the waste programs of the Region of Peel. He also outlined the proposed direction of staff for the Long Term Waste Management Strategy (LWMS). Norman Lee informed the Waste Management Committee that the Ministry extended the deadline for submission of comments on the Act to February 1, 2010 to allow municipal Councils time to consider the Ministry proposals. He also presented the draft comments prepared by Regional staff and sought direction from the Committee with regards to the official submission by Peel to the Province.

RECESS

Waste Management Committee recessed at 12:11 p.m.

Waste Management Committee reconvened at 12:44 p.m.

ROLL CALL

Members Present: G. Carlson^{*}; G. Gibson^{*}; E. Kolb; E. Moore; M. Morrison;
P. Mullin^{*}; C. Parrish^{*}; R. Paterak; M. Prentice; P. Saito^{*};
J. Sanderson; J. Sprovieri; A. Thompson

Members Absent: Nil

Discussion regarding Item 3a, the presentation by the Director of Waste Management on the *Waste Diversion Act* and the Long Term Waste Management Strategy resumed.

Councillor Sanderson inquired if the *Act* would also address manufacturers of illegally imported goods. Norman Lee responded that illegally imported goods will be classified under the definition of first importers in the *Act* and indicated that legal ramifications could be imposed should the importers get caught selling illegal goods.

Councillor Whitehead stated that the changes to the *Act* will generate a lot of revenue for the Province. Councillor Whitehead requested staff to include a section on revenue, the financial accountability and how effective the programs will be when Regional staff submit comments to the Province. He expressed concern that there will be a lack of accountability from the Province on how its finances will be handled.

Councillor Paterak suggested that the Region of Peel request the Province to consider making municipalities responsible for all waste.

Councillor Paterak inquired how staff plans to address the collection and diversion of large, bulky items when the legislation is implemented, whether through a user pay pick-up program or shifting the CRC hours of operations. Norman Lee responded that it could be a combination of a number of things and will be dependent on how the regulation will designate waste materials. Norman Lee stated that staff will review the implications to the Peel waste programs once the legislation is approved.

Councillor Paterak inquired how the extended producer responsibility (EPR) will affect the calorific feedstock value for municipalities with energy-from-waste (EFW) facilities and requested that staff evaluate this for future reference. Norman Lee stated that most of the materials designated are combustible materials with high calorific value and indicated that, while staff expects the calorific value of the remaining waste to drop, they will review this in more detail.

Councillor Paterak suggested that the Region start using clear bags to raise social consciousness of how people manage their garbage. He further indicated the need to enforce these changes and suggested rewarding residents who comply with Regional waste programs. Norman Lee indicated that staff will consider such policies as part of the Long Term Waste Management Strategy and will seek direction from the Committee as to how it will be handled.

Councillor Paterak inquired if the Committee Members can send additional comments to Waste Management staff after the December 17, 2009 meeting. Norman Lee responded that staff will welcome all comments from the Members of the Waste Management Committee after the meeting and advised that he would present any changes to General Committee prior to submitting the comments to the Province. Councillor Prentice requested that all Members of the Waste Management Committee be copied on any emails providing comments to Regional staff, to ensure they are fully aware of the information that will be presented to General Committee.

Councillor Thompson stated that there is a need for the federal government to make the producers accountable. He stated that staff should have a Memorandum of Understanding (MOU) from the federal government confirming that it will support municipalities to do the right thing for the environment.

Councillor Thompson indicated that the Region needs to prepare a business case to the Province about the existing, successful waste programs in Peel and how the government can help municipalities by channeling the money where money needs to go. He expressed concern that landfill is not cheap and the huge cost of maintaining the site is not accounted for. Councillor Thompson indicated that the Province should be requested to look at all options that will benefit the interests of municipalities and not just the Provincial government.

Councillor Saito indicated that there is a need to ensure the comments of Peel are heard. Councillor Saito asked if other municipalities have a similar approach to the proposed changes to the *Act*. Norman Lee responded that most municipalities will submit similar comments as Peel with slight variations. He stated that EFW as a diversion was raised during discussions with other municipalities. Norman Lee informed the Committee that the majority of the municipalities agree that EFW should be ahead of landfill in the hierarchy but did not go into further details in order not to displace other waste diversion programs.

Councillor Whitehead departed at 1:07 p.m.

Councillor Saito commended the Director of Waste Management and staff for a very thorough presentation that clearly identified the implications to the Region should the proposed *Act* be implemented by the Ministry. However, she expressed concern regarding how the changes will be rolled out to the public. Councillor Saito stated that the Minister's proposal did not clearly identify the method the Province will use to communicate the changes to residents. Norman Lee stated that the legislation did not clearly state how the information will be conveyed to the public. He stated that subsequent regulations will dictate responsibility for proper communication to the public.

Councillor Saito requested staff to prepare a recommendation urging the Province to ensure consistency of waste diversion policies across the Province of Ontario.

Councillor Saito requested staff to prepare a recommendation that would ensure the changes to waste diversion are communicated and paid for by the Province. She reiterated that the onus should be on the Province and not the municipalities. Norman Lee requested Councillor Saito to provide the recommendation to him by email.

Councillor McCallion stated that a consistent program across the Province is critical. She stated the complexity of the waste system and indicated that there needs to be a balanced approach of diversion and EFW.

Councillor McCallion stated that the regulation will define exactly how the plan will work and that AMO will be fully involved in the process.

Councillor McCallion expressed concern how the Province will handle the financial impacts of trying to deal with the costs to the municipalities.

Councillor McCallion commended staff for an excellent report and the draft comments presented by staff. She stated that the recommendations of Regional staff to the proposed changes to the *Act* are consistent with the position of the Association of Municipalities of Ontario (AMO).

Regional Chair Kolb requested that staff address composting as part of the official comments of the Region to the Province.

Councillor Mullin commended staff for the Region of Peel Current Waste Management System chart provided to the Waste Management Committee. She requested that another column be added to identify the possible risks to Peel, such as contracts and the plans for the EFW facility. Norman Lee undertook to add a column identifying the risks involved to the existing waste programs in Peel.

Councillor McCallion requested the Director of Waste Management provide a copy of the report to AMO as soon as Regional Council approves it. She also requested the Director of Waste Management to distribute the Region of Peel comments to other regions.

Councillor McCallion sought clarification regarding the staff recommendation that the Regional Chair submit the comments to the MOE and asked if it needs to be a joint approach among the municipalities.

Regional Chair Kolb responded that staff is recommending that a report be presented to General Committee outlining the official comments of Peel for submission to the Province, which will be signed by him. He indicated that it might be advantageous to request the AMO Committee to submit all municipal comments to the MOE to gain a stronger position.

Councillor McCallion agreed with Regional Chair Kolb and stated that all municipalities must jointly send similar comments to the Province.

Councillor Prentice thanked staff and the Committee for an excellent discussion on the official comments of the Region to the changes to the *Act* proposed by the Minister of the Environment. She questioned what the financial impacts will be to Peel and other municipalities when the *Act* is approved and requested that staff look into including cost implications in the comments.

Councillor Mullin departed at 1:36 p.m.

Councillor Prentice requested the Director of Waste Management to provide the Committee with an update of any additional comments before the report is presented to General Committee at its meeting on January 14, 2009.

Norman Lee responded that staff will provide more information on costs and risks where appropriate to the Committee before reporting to General Committee. He stated that staff will include a comment recommending that EFW be considered diversion.

RECOMMENDATION WM-21-2009:

That the Regional Chair send a letter to the Minister of the Environment outlining the official position of the Region of Peel to the proposed changes to the *Waste Diversion Act* by January 31, 2010;

And further, that a copy of the subject letter be provided to the Association of Municipalities of Ontario (AMO) and the Regional Public Works Commissioner of Ontario, for information.

- b) **Norman Lee, Director, Waste Management**, Providing an Update on the Algonquin Power Energy from Waste (EFW) Facility

Received

See also Item 3d

Norman Lee, Director of Waste Management, presented the options available to the Region regarding Energy-from-Waste. He stated that staff continues to explore a Peel-owned solution and is currently investigating the possibility of developing an EFW facility at the Peel Integrated Waste Management Facility (PIWMF). Norman Lee informed the Committee that staff continues to review new technologies and maintains their position in recommending that the final choice of disposal options be made as part of the Long Term Waste Management Strategy.

Councillor Gibson departed at 1:42 p.m.

Norman Lee informed the Committee of the potential opportunity to apply for the Federal Green Infrastructure Funding (GIF) for the expansion and refurbishment of the existing EFW facility. He indicated that the Region of Peel can apply for the funding but cautioned that there are no set guidelines for the program. Norman Lee presented the different options available to Peel and sought direction from the Committee on how to proceed with the application for federal funding.

Councillor Prentice asked how long the GIF will be available. Norman Lee responded that he is not sure when the Federal Government will stop the funding but that he understood it to be a five year program.

Councillor Thompson asked who is responsible for garbage collection in the high growth areas in Peel. Norman Lee responded that waste from apartments and condominiums is collected by the Region and is expected to remain the same with the new legislation.

Councillor Paterak sought clarification from the Director of Waste Management if a recommendation is expected to come out of the December 17, 2009 Waste Management Committee meeting. Norman Lee responded that staff would like to get direction from the Committee on how to proceed with the GIF application. He informed the Committee that Algonquin Power would like the Region to apply as soon as possible.

The Committee decided to hear the delegation by Glen Schnarr, listed as Item 3d, prior to discussing the presentation by the Director of Waste Management.

Item 3d was dealt with.

- d) **Glen Schnarr, President, Glen Schnarr and Associates Inc. Representing Algonquin Power**, Regarding the Algonquin Power Green Infrastructure Funding (GIF) Application

Received

See also Approval of Agenda and Delegations/Presentations – Item 3b

Glen Schnarr, President, Glen Schnarr and Associates Inc. representing Algonquin Power, stated that the purpose of their delegation is to request that Council direct staff to submit the Green Infrastructure Funding (GIF) application for \$35 million through the federal government. He indicated the urgency to apply for the federal funding before Christmas and informed the Committee that Algonquin Power has prepared the application on behalf of the Region of Peel. Glen Schnarr expressed his hope that the Committee approves filing of the GIF application with the understanding that there will be no commitment from Peel to go into agreement with Algonquin Power.

Councillor Prentice advised the delegation that the Waste Management Committee does not have the authority to direct staff to make an application without proper approval by General Committee and Regional Council.

David Szwarc, Chief Administrative Officer (CAO), indicated that staff could submit the application but reiterated that the key issue will be the agreement between the Region and Algonquin Power if the application for funding is successful.

Councillor Prentice sought clarification as to why staff indicated “changing or withdrawing an application after submission presents some financial and political risks” in the presentation. Norman Lee responded that the Region can apply for the six line 200,000 tonne option with Peel ownership as requested by Algonquin Power and submit a revised application at a later date but cautioned the Committee that the Federal Government may or may not approve the revised application.

Councillor Sanderson directed staff to prepare a letter of support for the Algonquin Power GIF application with no strings attached to any future or existing Region of Peel contracts.

Councillor Morrison asked if the letter will jeopardize the Region of Peel should the application be processed before Christmas. She expressed concern that the Committee is being forced to make a hasty decision without a complete understanding of what the implications will be.

Norman Lee responded that there will be risks involved no matter when the application is submitted.

Councillor Prentice informed the Committee that the request for delegation from Mr. Schnarr was received by the Committee Chair and Vice-Chair prior to the December 17, 2009 WMC meeting. She stated that staff provided the necessary information to the Committee meeting and that she does not feel there is any pressure from the delegation. Councillor Prentice stated that it is up to the Committee to decide if the matter will be brought to General Committee or Regional Council and subsequently make an appropriate decision that will be beneficial to the Region.

Councillor Morrison stated that that she does not feel comfortable moving forward with the application.

Dan Labrecque, Commissioner of Public Works, stated that Regional staff did not intend for the Committee to make a decision at the December 17, 2009 Waste Management Committee meeting but that it was appropriate that the Committee be made aware of the application issue and provide staff with direction.

Dan Labrecque stated that Regional staff could put together an application but sought clarification if the Region will apply for ownership or if Algonquin Power should apply as a company. He stated that staff is not comfortable giving a clear recommendation at this time given the uncertainties with the overall business plan. Dan Labrecque suggested that staff incorporate the feedback received at the December 17, 2009 Waste Management Committee meeting and include these in the staff comments. He sought direction from the Committee on how to proceed with the application.

David Szwarc clarified that the submission of a GIF application to the federal government will be solely for the purpose of earmarking the funds and it is not a statement of intention to enter into any kind of agreement with Algonquin Power or other companies.

Councillor Paterak indicated that the Committee meets infrequently enough that Regional staff needs to communicate information to the Members on a regular basis.

Councillors Sanderson stated that the letter will be strictly for support with no strings attached.

Councillor Saito departed at 2:25 p.m.

Councillor Thompson indicated that the Region has a good opportunity to apply for federal funding and does not anticipate that any problems will occur if the Region opts to file the application.

Glen Schnarr stated that he had no intentions of influencing the decision of the Committee for the Region's future waste management options; the intent was to preserve the opportunity to apply for the funding and to request Council's agreement to submit the application.

Councillor McCallion stated that the Committee could only support the staff direction of Councillor Sanderson. She indicated that if the Region of Peel provides a letter of support, staff should ensure that it does not obligate the Region to agree to whatever Algonquin Power proposes. Councillor McCallion expressed concern with giving direction to staff to proceed with the application on a Peel ownership basis without Regional Council approval.

Councillor Moore indicated that she is not opposed to the letter of support but that it needs to be more in line what the CAO said. She inquired if staff from Legal should draft a letter that details

the circumstances. Councillor Moore expressed concern that the Committee is being forced to make a decision without sufficient time to deliberate the options available to Peel.

Councillor McCallion departed at 2:41 p.m.

A discussion occurred as to what approach the Committee would take, highlighting the advantages and disadvantages of preparing a letter of support with no strings attached versus submitting an application for the Federal Green Infrastructure Funding on an ownership basis. The Committee also discussed presenting the application for federal funding to General Committee approval.

Councillor Sanderson re-stated his direction that staff prepare a letter of support on the Algonquin Power with no strings attached.

Councillor Sprovieri placed a motion for staff to submit the application for 50 per cent federal funding eligibility.

Councillor Prentice sought clarification on how General Committee will be notified of the Committee's decision to submit the GIF application. Dan Labrecque responded that Regional staff will provide a communication update to the Members of the Waste Management Committee prior to submitting a report to the January 14, 2010 General Committee meeting.

The Chief Administrative Officer sought clarification as to when the application should be submitted to the Ministry.

Councillor Sprovieri stated that his motion is for staff to submit the application before Christmas so that the Region will not miss the opportunity, as suggested by Glen Schnarr.

Councillor Prentice sought clarification if staff is asking for approval to buy Algonquin Power as outlined in the staff presentation. Councillor Prentice indicated that she does not want to be placed in a position to buy Algonquin Power.

Regional Chair Kolb reminded the members that it is outside the scope of the Terms of Reference of the Waste Management Committee to authorize staff to submit the GIF application without the support of Regional Council. He urged the Committee to wait until the motion from Councillor Sprovieri is considered by General Committee at its meeting on January 14, 2010.

Patrick O'Connor, Regional Solicitor and Director, Legal and Risk Management, indicated that the options are open to submit the application, quantifying the amount being applied for and disavowing any intention having been formed to enter to a relationship with Algonquin Power. Patrick O'Connor stated that it has to be clearly stated that Council has not made a decision to enter into an agreement with Algonquin Power.

The following motion was voted upon and carried:

RECOMMENDATION WM-22-2009:

That staff be authorized to submit an application to the Federal Government for the Green Infrastructure Funding (GIF) for the expansion and refurbishment of the existing Energy-from-Waste facility before December 25, 2009;

And further, that the application be submitted for a 50 per cent funding eligibility;

And further, that the GIF application include a disclaimer that it is subject to ratification by Regional Council at its meeting in January 2010;

And further, that the GIF application be cancelled should Regional Council decide not to proceed with the application.

Councillor Paterak directed staff to explore all the implications should the Region of Peel take full ownership of the Algonquin Power Energy-from-Waste facility such as possible exemption from property taxes. He also requested staff to provide information on possible annual cost savings should the Region run the facility on its own.

- c) **Norman Lee, Director, Waste Management**, Providing an Update on the Material Recovery Facility (MRF)

Received

Norman Lee, Director of Waste Management, provided an update on the ongoing negotiations regarding the Material Recovery Facility (MRF) with Waste Management of Canada Corporation (WMCC). He stated that the Region and WMCC have made exhaustive attempts to resolve the material composition dispute but have been unable to agree on the impact changing composition has had on the cost of operating the MRF. WMCC and Regional staff have concluded that the best solution is to terminate the Operating Agreement as early as it is practical to do so with some changes to the existing terms of the Agreement.

Norman Lee informed the Committee that the termination date will be no later than October 31, 2010 subject to Regional Council approval. He stated that the date may change should the Region be able to secure a new operator before the said date.

Norman Lee sought direction from the Committee on how to proceed with the existing contract with WMCC.

Rules of Procedure WaivedRECOMMENDATION WM-23-2009:

That in accordance with Procedural By-law 57-2006, as amended, Section III-2(n) be waived in order that the December 17, 2009 Waste Management Committee meeting continue past 3:30 p.m.

The Committee expressed frustration with the performance of Waste Management of Canada Corporation (WMCC) and concurred with the staff recommendation to begin a competitive procurement process to secure a new operator.

Councillor Moore moved the following motion:

RECOMMENDATION WM-24-2009:

That the proposed amendments to the Operating Agreement with Waste Management of Canada Corporation (WMCC) be approved as follows:

- The termination date will be no later than October 31, 2010, providing sufficient time to conduct the necessary turnover test at the MRF, prequalify suitable vendors, prepare, issue and award a competitive tender document for the operation and maintenance of the MRF, and, allow the successful bidder time to mobilize;
- An earlier date may apply if the Region is able to secure a new operator earlier;
- WMCC will limit its claim for additional compensation to an additional sum of \$360,000 (representing approximately an \$8 per tonne premium for the period from May 1, 2010 to October 31, 2010), Should the Region secure a new operator earlier than October 31, 2010, a proportionate share of the \$360,000 payment would be reimbursed to the Region;
- WMCC will not be charged liquidated damages for failing to meet the required recovery rates either retroactively or until the termination date but WMCC will use its best efforts to achieve recovery rates consistent with its recent performance. Similarly, no incentives will be paid if the recovery rates are exceeded;
- The Turnover Performance Test requirements of the Agreement will continue, with the exception that WMCC will perform the test only once by an agreed upon date, regardless of results. This will allow the Region to assess the MRF's ability to process the current mix of Blue Box material and move forward quickly with a process to secure a new operator; and,
- All outstanding Fibre Revenue and Processing Fee invoices will be reconciled and paid forthwith.

And further, that staff be authorized to commence a competitive procurement process to secure a new operator for the Material Recovery Facility.

Additional Item – Item 3d:

- d) **Glen Schnarr, President, Glen Schnarr and Associates Inc.**, Regarding the Algonquin Power Green Infrastructure Funding Application

This item was dealt with earlier in the meeting

4. REPORTS

- a) **Used Tires Program**

RECOMMENDATION WM-25-2009:

That the Region of Peel participate in the Ontario Tire Stewardship Used Tires Program as a registered collector at all Regional Community Recycling Centres (CRCs);

And further, that the Region of Peel participate in the Ontario Tire Stewardship Used Tires Program as a registered hauler, from all Regional CRCs;

And further, that the limit on the number of tires that can be dropped off at CRCs be eliminated;

And further, that CRC drop-off fees for dedicated loads of passenger car or light truck tires be eliminated;

And further, that CRC drop-off fees on dedicated loads of any size tire be eliminated at the Caledon Community Recycling Centre where there is no size limit on tires in place;

And further, that the Waste Management Fees and Charges By-law be amended accordingly;

And further, that the necessary by-law be presented to Regional Council for enactment;

And further, that the Director of Waste Management be authorized to execute the necessary agreements with Ontario Tire Stewardship (OTS).

b) Waste Electrical and Electronic Equipment Program, Phases 1 and 2RECOMMENDATION WM-26-2009:

That the Region of Peel participate in the Waste Electrical and Electronic Equipment (WEEE) stewardship program at the Bolton, Caledon, and Fewster Community Recycling Centres (CRCs);

And further, that the Region of Peel use a third party vendor to process co-mingled WEEE materials from the Battleford and Brampton Community Recycling Centres;

And further, that CRC drop-off fees for dedicated loads of Phases 1 and 2 WEEE items be eliminated effective January 1, 2010;

And further, that the Waste Management System Fees and Charges By-law be amended accordingly;

And further, that the necessary by-law to amend the Waste Management Fees and Charges By-law be presented to Regional Council for enactment;

And further, that a curbside collection ban on Phases 1 and 2 WEEE items be implemented effective April 1, 2010;

And further, that staff be authorized to adjust the level of participation in the WEEE stewardship program as required, when Phase 2 of the WEEE program is implemented in April 2010;

And further, that the Director of Waste Management be authorized to execute the necessary agreements with Ontario Electronic Stewardship (OES).

Councillor Carlson departed at 3:49 p.m.

Councillor Sprovieri requested staff to review the feasibility of adding another weigh scale and transactions at the Brampton CRC to avoid long line-ups, particularly on weekends.

Councillor Paterak requested staff to prepare a communication to residents that would justify the weighing fee imposed at CRCs.

Councillor Parrish departed at 3:50 p.m.

Councillor Paterak requested staff to look into the feasibility of offering a flat rate to eliminate congestion at the CRCs. Dan Labrecque, Commissioner of Public Works, stated that staff will report back to a future meeting of the Waste Management Committee on the implications of offering flat rates.

5. COMMUNICATIONS

- a) **Member Communication – Alert:** Association of Municipalities of Ontario (AMO) dated November 26, 2009, Regarding the Proposed Update to the *Interim Guidelines for the Protection and Use of Aerobic Compost in Ontario (2004)* by the Ministry of the Environment (MOE) with a 60-day Consultation Period until January 23, 2010

Received

6. IN CAMERA MATTERS – Nil**7. OTHER BUSINESS – Nil****8. NEXT MEETING**

The next meeting of the Waste Management Committee is scheduled for Thursday, January 28, 2010 at 1:00 p.m., Regional Administrative Headquarters, Council Chamber, 5th floor, 10 Peel Centre Drive, Suite A, Brampton, ON.

Please forward regrets to Stephanie Jurrius, Legislative Specialist, (905) 791-7800, extension 4502 or at stephanie.jurrius@peelregion.ca.

9. ADJOURNMENT

The meeting adjourned at 3:56 p.m.
