RECEIVED

MAR 16 2010

Dear Medical Officer of Health and Chair of the Board:

I am pleased to forward you a copy of the 2008 Report of the Chief Medical Officer of Health in accordance with the provision of section 81.(4) of the Health Protection and Promotion Act.

The report, titled Infectious Disease Prevention and Control in Ontario: Continuing the Investment in Public Health in 2008, focuses on the prevention and control of infectious diseases and the investments and resources that support this.

Whether it is preventing the spread of food-borne illness, ensuring optimal immunization coverage or reducing the transmission of health care-associated infections, strong partnerships are required with stakeholders. Infection prevention and control is a shared responsibility among many diverse players.

I am conveying this report in my former role as Acting Chief Medical Officer of Health of Ontario.

If you should have any questions or comments, please feel free to contact my office.

Yours truly,

[Handwritten signature]

David C. Williams, MD, MHSc, FRCPC
Associate Chief Medical Officer of Health, Health Protection and Prevention
Acting Chief Medical Officer of Health, November 2007-June 2009
