RE:

Congratulations - Region of Peel has won the ACT Canada Building Capacity for TDM in Canada Award

Dear Mr. Kolb

The Association for Commuter Transportation of (ACT) Canada is delighted to inform you that the Region of Peel was a recipient of the Building Capacity for TDM in Canada Award announced at the recent TDM Summit in Toronto. This award was presented to organizations who have served in a leadership role extending upwards of 9 years to build collaboration and capacity for transportation demand management (TDM) in Canada, starting from a point in time where TDM was not well understood and rarely practiced. We would like to congratulate your organizations' commitment to advancing the aims of sustainable transportation in Canada.

This award acknowledges excellence in helping to build national multi-disciplinary collaboration, leverage partnerships, increase knowledge exchange, and through dedication and support, helped to develop a true sense of community focused on TDM. The organizations receiving the Building Capacity for TDM in Canada Award are the founding and current Board Members of ACT Canada and the award was established to recognize their efforts as leaders in fostering and nurturing TDM. These organizations, and the individuals who served as their representatives, never waver from their commitment to making Canada's transportation system more sustainable - to improve the quality of life for our citizens.

I am honoured to take this opportunity to recognize and congratulate these Canadian leaders for their long term commitment, support and corporate focus on sustainability that has enabled ACT Canada to grow and thrive to better serve the needs of Canadian municipalities. The Building Capacity for TDM in Canada Award recipients are:

- **BA Consulting Group**
- City of Ottawa
- Commuting Solutions
- Halifax Regional Municipality
- Region of Peel
- Region of Waterloo
- The City of Calgary
- Town of Markham
- TransLink

Sincerely,

Sharon Lewinson, P.Eng.

President **ACT Canada**
