Dear Chair Kolb:

I am pleased to inform you of the release of the Government of Ontario's new long-term infrastructure plan, *Building Together*.

Building Together presents a strategic framework for continued infrastructure investment that drives economic growth and enhances our quality of life. It also provides clarity, sustainability and greater predictability in Ontario's infrastructure policies, while focusing on ensuring the province remains economically competitive and innovative.

Through *Building Together*, the province will continue to make significant investments in public infrastructure over the next decade. We will begin by investing more than \$35 billion over the next three years, including \$12.8 billion in 2011-12. These investments are projected to create and preserve over 300,000 jobs.

The development of our plan was guided by our extensive consultations across the province, and I am grateful for the valuable input of our partners in this important process.

The detailed plan is available on our ministry's website. To access the full document, please visit www.ontario.ca/buildingtogether.

We value collaboration with our partners in addressing the province's infrastructure

challenges. Working together, we have crafted a long-term plan which will focus Ontario's infrastructure investments to create jobs and help enhance the quality of life of all Ontarians.

Please accept my very best wishes.

Sincerely,
