Dear Ms. Jurrius,

**Re: Support for Pelmorex Communications Inc. – The Weather Network/
MétéoMédia**

We would like to thank you for the support that Pelmorex received from the Region of Peel which helped to reinforce with the CRTC the importance of having The Weather Network and MétéoMédia on basic cable, as well as confirming the value of our service to our viewers. The letter which you sent to the CRTC supporting Pelmorex's application was an important part of the CRTC's decision making process.

With your help, the CRTC approved Pelmorex Communications Inc.'s application to renew its broadcasting licence for The Weather Network and MétéoMédia to August 31, 2018 and approved the continued distribution of our services as part of the basic television service for the same period, subject to Pelmorex meeting certain criteria by the end of this year.

Thank you for your continued support.

Yours truly,

Paul Temple
Sr. Vice President, Regulatory & Strategic Affairs
Pelmorex Communications Inc.

Resolution Number 2011-13

Canadian Radio-television and Telecommunications Commission
Ottawa, Ontario
K1A 0N2

Subject: Requesting the Region of Peel's Support for Pelmorex, the Parent Company of The Weather Network, to Make an Application to the Canadian Radio-television and Telecommunications Commission (CRTC) to Keep The Weather Network on Basic Cable

I am writing to advise that Regional Council approved the following resolution at its meeting held on Thursday, January 13, 2010:

Moved by Councillor Moore,
Seconded by Councillor Dale;

Whereas, the Ontario Good Roads Association (OGRA) has requested the Region of Peel's support for Pelmorex, the parent company of The Weather Network, to make an application to the Canadian Radio-Television and Telecommunications Commission (CRTC) to keep The Weather Network on Basic Cable;

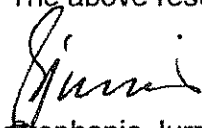

And whereas, the Regional Municipality of Peel is comprised of the Cities of Brampton and Mississauga and the Town of Caledon, and has a population of over 1.2 million residents who benefit from the availability of local weather information about their community on the local basic cable television service;

And whereas, removing this essential source of weather warnings, public safety bulletins and road condition information from the basic cable package may negatively impact members of our community who rely on this affordable service on a daily basis;

Therefore be it resolved, that the Regional Municipality of Peel supports the application by Pelmorex, the parent company of The Weather Network, to make an application to the Canadian Radio-Television and Telecommunications Commission (CRTC) to keep The Weather Network on Basic Cable;

And further, that a copy of this resolution be sent to the CRTC Secretary-General, and the Ontario Good Roads Association.

The above resolution is provided for your information.
