IMMUNIZATION SERVICES FOR CHILDREN AND TEENS

Immunization Protects Us All

Peel Public Health's **Routine Immunization Clinics** will give children and teens the immunizations needed to go to a licensed child-care centre or school (kindergarten to grade 12) in Peel region if they:

- Do not have an Ontario Health Card or other health insurance; and/or
- Are facing suspension from school.

Where are the clinics?

- Clinics are in Brampton and Mississauga, and held by **appointment only**.

How do I book an appointment?

Call 905-799-7700 for an appointment.

The nurse will ask you for your child's:

- Name,
- Age,
- Gender (boy or girl),
- Phone number, and
- Immunization and health history.

When should I call?

Call Peel Public Health at least two weeks **before** signing up your child for licensed child care or school.

Why does my child need immunizations?

In Ontario, laws require that every child under the age of 18 who is going to a licensed child-care centre or school have specific immunizations. Your child cannot go to licensed child care or school without them.

Parent checklist:

To do:

- Come to your appointment on time. If you are unable to come or are late for your appointment, please call the nurse at 905-799-7700.
- Bring documents that show your child's name and date of birth, such as a passport or a permanent residency card.
- A parent or legal guardian must come to the appointment if your child is under 14 years of age.
- Bring someone with you who can read and understand English.

Make sure your child:

- Knows he/she will be getting needles
- Eats a good breakfast or lunch before coming
- Wears a shirt that has short sleeves

Once the needles are given, the nurse will give you a yellow card (immunization record) and the documents you need in order to sign up your child for licensed child care or school.

The nurse will tell you if more immunizations are needed.

After your child gets the needles, you will need to wait in the clinic for 15 minutes.
