**Temperature Monitoring Device Specifications:**

- Monitoring device must have a display screen that provides current temperature, maximum and minimum temperature readings since it was last reset.
- Device must record temperatures by 0.1 °C.

**NOTE:** Data loggers DO NOT replace the need for a twice daily observation and documentation of the CURRENT / MAXIMUM and MINIMUM refrigerator temperatures in the “Temperature Log Book”

**Disclaimer:** As a Public Health Unit, we are precluded from endorsing any specific product or vendor. Ultimately, the terms and conditions of your purchase are between you and your vendors. Commonly used vendors are listed below.

**PharmaSystems**
151 Telson Road
Markham ON L3R 1E7
