

## Child-to-Child Partnership Agreement

Peel Health welcomes you as a partner in implementing the Child-to-Child process at your school. To ensure success of the program, a mutual understanding and agreement between both parties is essential.

The objectives of the Child-to-Child process are to:

- ✓ Learn to work together
- ✓ Recognize, acknowledge and communicate feelings and emotions
- ✓ Feel empowered
- ✓ Have meaningful interactions with adults in their community

This partnership agreement between \_\_\_\_\_ and Peel Health outlines the following commitment in implementing the Child-to-Child process.

- The implementation of Child-to-Child is meant to be a joint venture between your school/agency and Peel Health. Peel Health will not assume sole ownership for the survival and success of this initiative.
- The intended long-term goal is that the school will be committed to support and nurture the Child-to-Child process.
- Facilitation will be shared between both parties and both co-facilitators are committed to attend each Child-to-Child session for the full duration.
- The school designated Child-to-Child co-facilitator will attend a half-day training session hosted by Peel Public Health.
- The school will be responsible for taking care of site arrangements including providing a suitable environment for meeting.
