Immunization for Newcomers

Held by appointment only.

Immunize On Time.
Report Every Time.

For more information about immunization, call Region of Peel Public Health at 905-799-7700 or visit our website at peelregion.ca/immunize/
Immunization Protects Us All

Region of Peel Public Health offers clinics that provide children and teens the immunizations needed to register for licensed child care or school (kindergarten to grade 12) in Peel if they:

• Do not have a copy of their immunization record.
• Are within the 3-month wait period to receive an Ontario Health Insurance Plan (OHIP) card and do not have Interim Federal Health (IFH) or private health insurance.

International students or children with an IFH number can go to a family doctor or a walk-in clinic for immunizations. Immunizations for international students may be available at a cost or covered by private insurance. Immunizations for a child with an IFH number are free.

How do I book an appointment?

Call 905-799-7700 for an appointment.

You will be asked for your child’s:

• Name,
• Date of birth,
• Gender,
• Home address,
• Phone number,
• Arrival date to Canada, and
• Immunization and health history.

When should I call?

Call Region of Peel Public Health at least two weeks before signing up your child for licensed child care or school.

Why does my child need immunizations?

In Ontario, laws require that every child under the age of 18 who is going to a licensed child-care centre or school have specific immunizations or provide an exemption.

Parent checklist:

To do:

□ Come to your appointment on time.
□ Bring documents that show your child’s name and date of birth, such as a passport or a permanent residency card.
□ A parent or legal guardian must come to the appointment if your child is under 14 years of age.
□ Bring someone with you who can read and understand English.

Make sure your child:

□ Knows he/she will be getting needles.
□ Eats a good breakfast or lunch before coming.
□ Wears a shirt that has short sleeves.

Once the needles are given, the nurse will give you a yellow card (immunization record) in order to register your child for licensed child care or school.

After your child gets the needles, you will need to wait in the clinic for 15 minutes.
