

3. Do you have any comments on the Region's preferred design alignment along the feedermain route? Are there any additional issues along the preferred alignments that the Region should be aware?

4. Please provide any other comments that you feel are relevant to this study.

Thank You!

All comments collected will be included in the Environmental Study report documenting this project. Comments on this part of the project will be received until June 24, 2011. You can leave your comment sheets tonight or send them to:
