

Hanlan Water Project

what's new?

Restoration of Compound at Cawthra Road and Eastgate Parkway

This notice tells you about what we are doing to minimize dust and noise from the compound, and when we will restore the area.

What we are doing now:

- We only use the compound periodically
- We have moved construction equipment to the north side of the compound, away from most homes
- We have blocked off the south entrance to keep truck traffic to the compound away from most homes
- We will wet the area before and during use to keep dust down

Restoring the area:

- We must open the south entrance of the compound while we restore Cawthra Road, which will include installing a multi-use trail on the west side of Cawthra Road
- Work should be complete by December 2017, weather permitting
- We will let you know before we start restoration work
- We will restore the area with trees and shrubbery, to at least as good a condition as before construction

Thank you for your patience!
