Project 10-1205

INSTALLATION OF THE HANLAN FEEDERMAIN – CONTRACT 1 SOUTH LAKEFRONT PROMENADE FROM LAKEVIEW WATER TREATMENT PLANT TO LAKESHORE BLVD. CITY OF MISSISSAUGA

What are we doing?

- Installing approximately 320m of the Hanlan Feedermain along with associated works along Lakefront Promenade from the Lakeview Water Treatment Plant to Lakeshore Boulevard, as shown on the attached map.

When?

- We expect to start work on or about December 1, 2011, with mobilization and preliminary investigations.
- Work will start at Rangeview Road and will progress south to the Lakeview Water Treatment Plant. Once completed, works will then progress to the north to Lakeshore Road. This may change should issues be encountered.
- We will start restoring the road and landscaping when installation is complete and as weather permits.
- Work in your area should be completed in June 2012.

Who can you call?

Region of Peel		
Contact Person	Responsibilities	Telephone Number
Bill Turner	Project Manager	905-791-7800, ext. 7837
CH2M HILL		
CH2M HILL is the Engineer, under contract to the Region of Peel		
Contact Person	Responsibilities	Telephone Number
Theo Melo	Site Inspector	647-286-2614
Varcon Construction		
Varcon Construction will do the work, under contract to the Region of Peel		
Contact Person	Responsibilities	Telephone Number
Paul Courchesne	Project Manager	647-389-3846

Traffic and Parking Control

- We may need to reduce traffic to a single lane in each direction during construction.
- If we have to reroute traffic, we will place detour signs giving alternative directions.
- We will let you know in advance of possible delays or detour routes.
- You can follow our progress on Twitter at @hanlanwp.

Repairing the Road, Curbs, and Sidewalks

- We will start restoring the road and boulevard once all the installation work is complete and as weather permits.

Project Updates

- The Region of Peel will always let you know if there are any major changes to the plans.
- We will try to disturb you as little as possible.
- Please call the Project Manager or Inspector if you have any problems or special needs.

Special Notes for Homes and/or Businesses Located on Lakefront Promenade

Driveway Access

- We may need to block your driveway for a short time. We will contact you before we do this to arrange for the best time and alternate access, if needed.
- We will make sure businesses have access at all times.
- Please call the Project Manager if you have special needs related to access or business hours.

Irrigation or Sprinkler Systems

- Please tell the Inspector if you have underground irrigation or a sprinkler system outside your property line.
- You may wish to move the sprinkler lines to inside your private property to avoid damage.

Trimming Trees

- If tree branches within the right-of-way interfere with construction, the contractor will have the trees pruned before equipment enters the drip line of the tree.
- If tree branches on private property interfere with construction, they will be pruned back to the nearest suitable trunk, crotch or branch.
- The contractor will ask you for permission before cutting any branches. If you do not allow the contractor onto your property to trim the branches, the branches will be cut vertically at the property line.

Interrupting Your Water Supply

- If we need to shut off your water, we will try to tell you 48 hours (2 days) in advance.
- If we have to shut off your water because of an emergency, we will do everything we can to fix the problem as quickly as possible.

Replacing and Taking Care of Your Sod

- The contractor will take care of any sod we replace for 30 days.
- You can help the sod to stay healthy by watering it for one hour in the early morning, two or three times a week. This is especially important in hot or dry weather.
- We will replace your sod as soon as we can, but there may be a short delay.

Repairing Your Driveway

- If we need to cut your driveway to gain access to the watermain, we will repair the asphalt from edge to edge across the driveway, from the curb or sidewalk to beyond the damaged area. The Region cannot undertake complete driveway replacement.
- Several weeks before the driveway restoration work, we will send you an update with contact information for the contractor, in case you wish to have the remainder of your driveway (private side) paved at the same time.
- If you have any concerns, please call the Project Manager.
- We will repair your driveway as soon as we can, but there may be a short delay.

Thank you!

Bill Turner
Project Manager, South Section
