Notes: Comparison between the 2011 National Household Survey and the previous 2006 Canadian Census should be made with caution due to differences in the methodology and questionnaires used.

Only single origins were included in the ranking of top 10 ethnic origins within a given area. However, multiple responses were allowed. Subtotals using the single origins will not add to totals. Statistics Canada randomly rounds counts for Census and National Household Survey data to maintain confidentiality. Therefore, the total value may not match the sum of the individual values within the table. This random rounding process is conducted independently for all data tables which may lead to slight differences in values between tables/sources.
