

Ministry of Health and Long Term Care Central West & Mississauga Halton LHINs Supportive Housing

April 4, 2017

MOHLTC Collaboration with LHINs

MOHLTC

Administration of :

- Transfer Payment Agreements, e.g. supportive housing operating agreements, capital agreements, rent supplement agreements;
- Homes for Special Care program licensing and funding.

Funding for:

- Mortgage financing, operating budgets, capital reserve and rent subsidies to agencies which own projects.
- Rent supplements for agencies that have entered into agreements with private or non-profit sector landlords.

LHINs

Administration of:

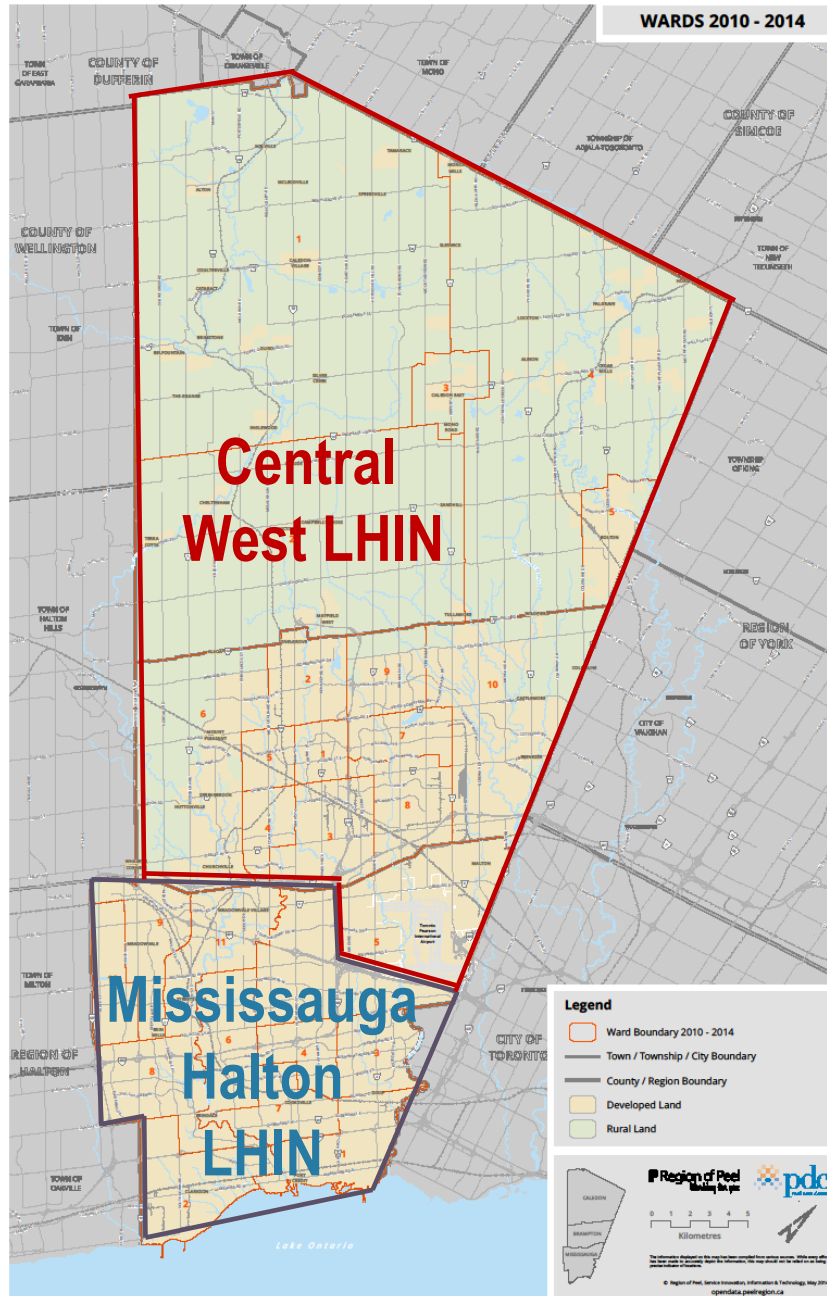

- Multi-Sector Service Accountability Agreements (which include the support services for clients in the housing units).

Funding for:

- Support services for clients in supportive housing units e.g., support staff providing mental health/addiction and community support services.

Planning for new supportive housing is coordinated by both MOHLTC and LHINs

SUPPORTIVE HOUSING

Ministry of Health and Long Term Care and LHIN roles in Supportive Housing

The government of Ontario recognizes that supportive housing is a proven model for cost-effectively providing housing and services and is critical to meeting its homelessness and poverty reduction commitments.

The Ministries of Housing, The Ministry of Health and Long-Term Care (MOHLTC), Community and Social Services and Children and Youth are working together to deliver more housing and support services to the people who need them.

The ministry has increased the number of mental health and addictions supportive housing units it funds by approximately 46% over the last decade.

In 2014/15 the Ministry invested an additional \$16 million annually to create 1,000 units of new supportive housing under the Mental Health and Addictions Strategy.

In 2016/17, the ministry announced 1150 additional rent supplement units of, as part of a \$20 million annual investment in new supportive housing.

The ministry expects to deliver approximately half of these new units in 2017/18 and the remainder in 2018/19.

LHINs focused on the Housing First model

Both LHINs and MOHLTC are members of Region of Peel Roundtable

Increase of 60 MHA units in Peel by Central West and Mississauga Halton LHINs

Assisted Living for Other Populations

LHINs and MOHLTC are collaborating to establish distribution

Ministry of Health and Long Term Care and LHIN role in Supportive Housing

The Ministry funds and administers the housing component (mortgage, capital reserve, operating expenses e.g. utilities, maintenance, rent subsidies)

The portfolio includes high and low-rise apartment buildings, townhouses, houses and congregate living settings.

The Ministry funds approximately 16,000 housing units across Ontario.

The Ministry funds approximately 500 units of supportive housing for people with mental health and/or addictions issues and physical disabilities in the Region of Peel.

The Ministry also funds and licenses the Homes for Special Care (HSC) program for people with mental illness administered by Centre for Addiction and Mental Health. There are 56 HSC units in Peel Region.

LHINs fund related support services

The full array of housing is provided in Region of Peel
