

January 2013

Mississauga/Mayfield Road Watermain and Sanitary Sewer Construction City of Brampton – Wards 2 & 6; Town of Caledon – Ward 2

Project Numbers 13-1145; 12-1185; 12-1186; 12-1260; 12-1261; 12-1140; 10-1215; 08-1175; 11-1146; 07-2250

The Region of Peel is installing various sized watermains in your area beginning this spring (2013) with construction anticipated to be completed by the end of the year. The watermains will be installed in the road right of way at the intersection of Creditview Road and Mayfield Road and on Mayfield Road from Mississauga Road to Hurontario Street (see map on reverse).

In preparation for the construction you may notice various activities in your area:

1. The location of gas, hydro, cable, etc. being marked along the roadways
2. Borehole drilling to determine ground conditions
3. Surveying culverts and ditches
4. Structural surveys will be conducted before construction and you may be contacted by the Region's representative, Cole Engineering Group Ltd.

This work will not cause significant delays to traffic.

Other construction work to begin this month

In addition, watermain and sanitary sewer construction will begin this month (January) on Mississauga Road between Bovaird Drive West and Sandalwood Parkway West. This work is anticipated to be completed by 2014.

Co-ordination with other works

As we co-ordinate works with the City of Brampton and the Town of Caledon, our work may be followed by road construction and/or resurfacing. In this case our restoration may only be temporary. When the city has finished the road work they will complete a comprehensive restoration.

We will provide more information as the works progress.
