

Burnhamthorpe Water Project

What's New?

March 23, 2021

Cawthra Road and Burnhamthorpe Road: Northeast corner

What are we doing?

- Securing the new watermain in the tunnel using cement (grouting). We have done this at other project compounds and have now moved to the compound at the northeast corner of Cawthra and Burnhamthorpe.

Minimising the impact to you:

- You may notice some noise from the grouting operation. **We will do everything possible to keep the noise to a minimum.** The loudest noise will be limited between 7:00am and 9:00pm. Noise shields have been installed to reduce impacts to residents.

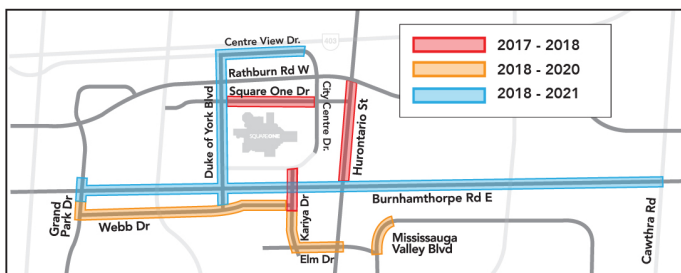

When?

- The Contractor has started preparing by setting up the grouting equipment and silos.
- **Grouting is expected to start mid-April. We will work 24 hours a day for 4 weeks.**

What you will see:

Thank you for your patience while we complete this work.
