Project 13-1347 B

**PROJECT UPDATE  
BENEDET DRIVE FROM SOUTH SHERIDAN WAY TO UNA ROAD  
CITY OF MISSISSAUGA**

We wish to thank you for your patience and courtesy while we have been working in front of your home. I'm sure you'll be glad to know that this section of the work is almost complete.

During construction, we had experienced several delays that were beyond our control. As a result, we are providing you with an update so that you are aware of the next steps with regards to the work on your street.

At this point, all the new watermain has been installed and is currently being pressure tested and disinfected. Samples of the water in the new watermain will be taken and sent to a lab for analysis. These test samples will need to pass after which the new watermain can be connected to the existing water system. Two connections need to be made, one at the entrance to Kogaydiwin Park near Una Road and the other at South Sheridan Way. Once these connections have been made, restoration of the roadway, curb, any sidewalk, boulevards, and driveway ramps will occur. This restoration is anticipated to occur in late November to mid-December. Since it is late in the season, if the weather does not cooperate, some of this restoration work will have to occur in the spring. However, once the connections are made to the existing water system, the one-way lane closure at South Sheridan Way will be removed and the roadway will return to normal.

If your water service must be interrupted during the final connections, you will receive an advance notice indicating the date and time. However, at this time, we do not anticipate any water service interruptions.

We appreciate your co-operation during the completion of the work.

If you have any questions, call me at 905-791-7800 x 7832 or email me at [nicole.sartor@peelregion.ca](mailto:nicole.sartor@peelregion.ca).

Thank you!

Nicole Sartor  
Project Manager – Water Division
