CITY OF MISSISSAUGA**

What are we doing?

Why?

- To temporarily restore the affected areas following the upgrade of the water distribution system.
- **Permanent driveway, road, sod, sidewalk and curb restoration will be done in the Spring of 2018.**

When?

- The project should be completed before May 31, 2018.

Traffic and Parking Control

- We may need to reduce traffic to a single lane during construction.
- If we have to reroute traffic, we will place signs giving directions.

Driveway Access

- Due to construction activities, we may need to block your driveway for a short time. We will contact you before we do this to arrange for the best time and for alternate access, if needed.
- We will make sure businesses have access at all times.
- Please call the Project Manager if you have special needs related to access or business hours.

Repairing Your Driveway

- If we damaged a portion of your **asphalt driveway**, a temporary asphalt patch will be installed by our watermain contractor. Unfortunately due to the cold weather it is too late to permanently to restore your driveway.

- Spring 2018 your driveway will be replaced in the disturbed area from edge to edge across the driveway. Unfortunately the Region **cannot** completely replace your driveway.
- **If you would like to have the rest of your driveway paved, you will be given this opportunity in Spring 2018.**
- If we damaged a portion of your **interlock driveway**, our contractor will fully reinstate this year.
- We will repair your driveway as soon as we can, but there may be a short delay.

Project Updates

- The Region of Peel will always let you know if there are any major changes to the plans.
- We will try to disturb you as little as possible.
- Please call the project manager or inspector if you have any problems or special needs.
- A notice will be delivered in the Spring of 2018 at the start of permanent restoration.

Thank you!
