

# Burnhamthorpe Water Project

# What's New?

May 14, 2021

## Burnhamthorpe and Central Parkway Compound

### What are we doing?

- Securing the new watermain in the tunnel using cement (grouting). We have done this at other project compounds and have now moved to the compound at Burnhamthorpe and Central Parkway.

### When?

- The contractor has started preparing by setting up the grouting equipment and silos.
- **We are expecting to start grouting 24 hours a day on Wednesday, May 19 for 2 weeks.** The loudest noise will be limited between 7 a.m. and 9 p.m.

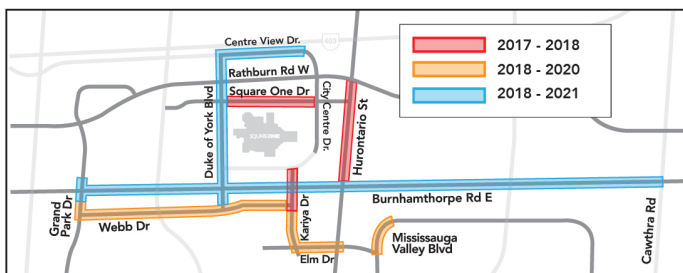

### Minimising the impact to you:

- You may notice some noise from the grouting operation. **We will do everything possible to keep the noise to a minimum.** Noise shields have been installed to reduce impacts to residents.

### What you will see:

Thank you for your patience while we complete this work.
